Mon-Corr SP

Mon-Corr SP is a film forming type corrosion inhibitor specifically designed to protect oilfield tubulars.

Mon-Corr SP forms a uniform, thin film to effectively seal out moisture and corrosion. Mon-Corr SP provides long-term protection on all metal and alloy surfaces, even under harsh environmental conditions. It may be used both indoors or outdoors as a protective coating on raw materials, new machined parts, tools, pipe, fittings, valve, etc., while they are being stored or in transit.

Application

- Non-Toxic
- Economical
- Prevents rust and corrosion

| Technical Data | Typical Properties |
|-----------------------|--------------------|
| Appearance | Liquid |
| Color | Amber |
| Specific Gravity | 0.92 ± 0.02 |
| Solubility in water | Not soluble |
| Dosage recommendation | As required |

Packaging: 19 L pails
